

2015

UK Packaging Awards

Hewlett-Packard Company

02/12/2015

On November 11th, at the London Hilton hotel on Park Lane, the **UK Packaging Awards 2015** took place.

Among the many categories, one of the most important was that of **The Best Packaging of a New Product**, where YOLLIES – A YOGHURT ON A STICK- came highly commended.

YOLLIES – A YOGHURT ON A STICK- are packed using UNIFILL technology and they represent a smart combination of attractive characters and an innovative peelable pack that, once opened, reveals a lolly-style yogurt on a collectable plastic stick.

The filling of the **YOLLIES** pod was designed jointly by the Kerry Foods team and the Engineering & Design Department of UNIFILL.

The Yollies are produced on a TF02/EP machine supplied by the Italian UNIFILL SRL, the world leader in the manufacturing of Vertical Thermoform, Fill & Seal machines for unit-doses and portion packs for the food and the non-food industry.
