

Take the Shortcut to Central and Eastern Europe

Take the Shortcut

The shortest seaway between Asia and Central and South-Eastern Europe leads through the Port of Koper (Slovenia).

Transit time: Far East – Port of Koper = 24 - 30 days

Road and rail distances to selected European cities

- Koper–Bern: 750 km
- Koper–Milan: 450 km
- Koper–Munich: 500 km
- Koper–Prague: 800 km
- Koper–Vienna: 490 km
- Koper–Bratislava: 550 km
- Koper–Budapest: 560 km
- Koper–Zagreb: 240 km
- Koper–Belgrade: 630 km
- Koper–Sarajevo: 650 km

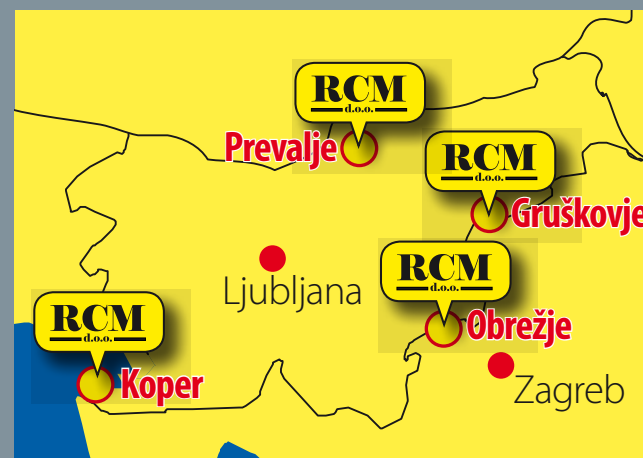

In comparison with the ports in northern Germany, the Netherlands, or Belgium, the path through the Port of Koper to the key Central European hubs (Munich, Vienna, Prague, Warsaw, Bratislava) is 2000 nautical miles shorter by sea and 500 km by land.

Koper's proximity to the Suez Canal offers a major advantage over northern European ports

Transportation time from the Suez Canal to Central European capitals

Complete Logistics Services

We handle every aspect of transporting goods between Central Europe and Asia. We recommend the optimal manner of transporting freight with regard to its character, the duration of transport, and final destination. We plan and organise the path of your goods – we deal with all customs and other official procedures, transshipments, warehousing, and above all correct delivery of the goods to the destination by the agreed time.

Our operations are transparent – you can always check where your freight is and what is happening to it.

Improve Your Liquidity, Use the Code 42 Customs Procedure.

We have a wealth of experience in handling customs procedures for importers from other EU Member States who import from countries outside the EU. We carry out customs procedures for clients in Italy, Austria, Germany, Slovakia, Hungary, and other EU Member States. By using the Code 42 Customs Procedure our clients postpone the payment of VAT when importing from outside the EU, and by such improve their liquidity.

Fiscal clearance – the Code 42 Customs Procedure. Advantage for all EU Importers.

Experience Ensures Quick And Effective Solutions

The transport and timely delivery of goods have an exceptionally important role in the business world. At our branches at the Port of Koper, on the border with Croatia, and in Prevalje we offer complete turnkey logistics services in the fields of freight forwarding, logistics, and transportation. We organise transportation by sea, rail, container, road, and air for all types of goods, including project cargo and hazardous substances.

We have been active in the field of logistics and transport for more than 20 years.

All our employees have long-term and extensive experience in the fields of logistics and customs operations.

Thus, we can offer complete dedication and always find the optimal solution. In such a manner you will save valuable time and money.

We perform the following services for our clients:

- Organisation of international and domestic transportation (*by sea, air, road, and rail*);
- Project cargo;
- Bonded warehousing;
- Customs procedures (import, export, transit);
- Intrastat;
- Administrative services.

More detailed information regarding our services and references are available on our website: www.rcm.si.

The key advantages of RCM:

- Many years of practical experience with demanding logistics processes;
- We always seek the most favourable logistics solution;
- Specialised in customs mediation, with a 10.12 % market share in Slovenia;
- Licensed by the Customs Administration of the Republic of Slovenia to carry out simplified customs formalities procedures, resulting in faster execution of such procedures;
- 24/7 execution of customs mediation services;
- Our bonded warehouse has available capacity of 3,600 m².

We can do it all!

We are flexible and together with the client we always find the most favourable solution.

Give us a try!
