

# PAIR OF RUBBER 1000 FLOOR MOUNTS

## PAIR OF RUBBER 1000 MOUNTS

### USE:

- Rubber mount: Can be used to support heavy loads.
- Each Rubber mount is equipped with a moulded-in 40 x 20 x 995mm aluminium strip, used to mount the external unit.
- The cavities located in the bottom of the Rubber Foot mounts allow placement on a roof or on gravel without damaging roof surfaces.
- The Rubber mounts are produced from recycled tyres and provide highly effective and economical anti-vibration pads.
- Item code: AS1000PBFP

### SPECIFICATIONS:

- AS1000PBFP per pair: Strapped packaging
- Weight: 19.4kg
- Supplied with screws and bolts to rail-mount the unit

### TECHNICAL DATA:

- 2 Rubber 1000 x 160 x 95 anti-vibration floor mounts. Compatible with all air conditioning unit types with a maximum weight of 1000 kg.

Advantages:

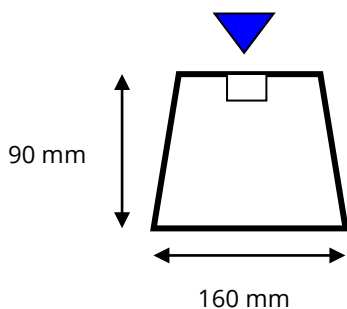

Highly effective anti-vibration properties.
