

NUBBIN GRADER - SV

For sorting short pieces of roots products on size like:

DESCRIPTION NUBBIN GRADER – SV

The Nubbin Grader is designed to sort out the short pieces out of the long product. The vibrating deck transports the product horizontally over a bed with round holes. Short pieces tip over into the holes, onto the lower deck. The diameter of the holes determines the short piece sorting length. The plates with holes of the vibrating deck are easy to exchange. This Nubbin Grader can also function as a dewatering vibrator in addition to sorting out the short product.

TYPE	SV 800/2000	SV 1200/3000	SV 1200/4000
CAPACITY	Up to 4000 kg/hr*	Up to 6000 kg/hr*	Up to 8000 kg/hr*
PRODUCT INFEED	Continuously, well spread over the width of the machine.	Continuously, well spread over the width of the machine.	Continuously, well spread over the width of the machine.
DIMENSIONS	2000 x 1000 x 1400 mm	2000 x 1400 x 1400 mm	2000 x 1800 x 1400 mm
SORTING SIZE	Unlimited	Unlimited	Unlimited
SORTING LENGTH	2000 mm	3000 mm	4000 mm
