

# Carthamus

Straight from the Mediterranean, Europe, and USA, this colorant, extracted from carthamus tinctorius, also known as safflower, is completely natural and continues our clean label commitment. Carthamus Extract provides shades of yellow to orangish yellow when used alone, or can provide a variety of red shades when blended with Paprika or Anthocyanins and Green when combined with Spirulina. Such is the versatility of Carthamus.

## Applications:

Carthamus is the perfect choice for your confectionery, beverage, bakery, dairy, or meat application.
