Salts

The Dead Sea's mineral concentration is the highest in the world. It comprises 21 essential minerals, including magnesium, calcium, potassium, bromine, chlorine, sulphate, carbonate, silicate, and other trace minerals (micro-minerals), 12 of which are not found in any other body of water. This unique and powerful combination yields unmatched, naturally therapeutic benefits provided through the Dead Sea salt (Maris Sal), mud (Silt) and water (Maris Aqua), that have intrigued people for centuries.

Water

The water in the basin of the Dead Sea is rich in minerals, retaining the deep-cleansing and detoxifying agents offered by its high salt content, and supplying all the embedded benefits for skin, muscles, joints and blood circulation. With its high mineral concentration, Dead Sea water is recognized as a powerful source for health and beauty benefits, helping to enhance metabolic processes, and to restore the skin's normal functions and natural pH level, to maintain its healthy, glowing appearance.

Our Dead Sea water can be used on its own or mixed with essential oils for massage therapy, combined with the Dead Sea mud as a scrubbing solution, and used in the formulation of a range of cosmetic products.

And mud

Found on the bed and shores of the Dead Sea, the Dead Sea mud was formed tens of thousands of years ago from a combination of organic materials, which has resulted in a neat blend of high-potency minerals, making it the ideal choice for numerous therapeutic benefits.

The magical mud is used as a mud powder or mud paste to cure a variety of ailments, including psoriasis and back discomfort. The assertions that Dead Sea mud may ease pain, reduce inflammation, and do other things are backed up by a lot of studies. Moreover, the Dead Sea Mud from Jordan has a long shelf life and can be used for years after purchasing.

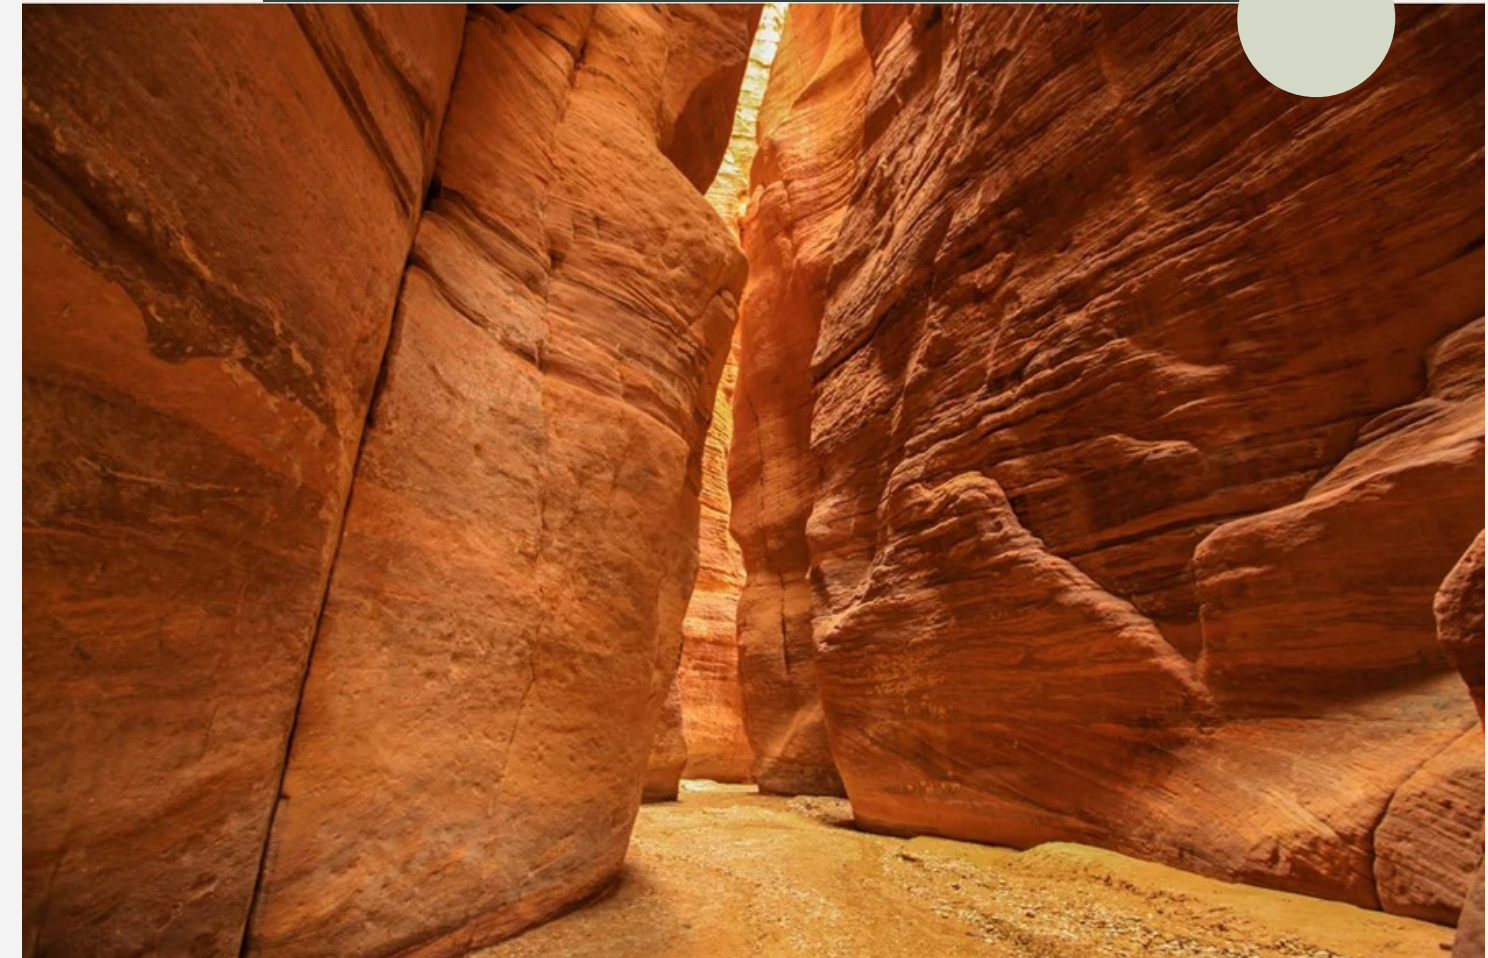

From Jordan

Bearing the traces of a multitude of civilizations across history, the ancient land of the young Hashemite Kingdom of Jordan offers a landscape of wonder, beauty and variety. Between majestic mountains, rose desert sand, and fruitful valleys, lies the deepest hyper-saline lake in the world, the Dead Sea.

As one of earth's saltiest bodies of water, the Dead Sea acquired its name from the inability of aquatic flora and fauna to exist in its environment.

The water of the Dead Sea has an unparalleled chemical composition, due to its superior salinity that is almost ten times the salinity of other seas and oceans

On the shores of the Dead Sea, black curative mud that was deposited over thousands of years, accumulated layer by layer, to become very rich in salts and minerals, which have many healing properties, used to cure many intractable diseases, especially skin diseases, as it is easily absorbed through the skin.

The process

Our Dead Sea salt is extracted directly from the source and is 100% pure and natural and comes in a selection of customizable grain sizes to guarantee the perfect fit for your needs.

Moreover, the different grain sizes of the Dead Sea Salt Jordan are apt for different purposes.

AMHARISERA

Our concept

AMHARISERA offers conventional or organic and/or Fair Trade certified natural ingredients to the cosmetics, perfumery and pharmaceutical industries.

After 20 years of experience in various industries in France and abroad, Alexandra Legai and Fabrice de Panthou have developed a taste for naturalness. We decided to combine our know-how to serve natural ingredients producers in the world.

All the natural ingredients we offer are carefully selected in a spirit of human and environmental respect. As exclusive agents, we consider essential to work in complete confidence. We are committed to **total transparency and traceability** by offering you the possibility of **direct contact with producers on site**.

AMHARISERA refers to the Amharas, traditionally sedentary farmers living in Ethiopia. They formed the heart of imperial Ethiopia. The elites of this ethnic group were for a long time those who ruled the country. They live in the rich mountainous regions of the Ethiopian highlands of the Horn of Africa.
