

# QUALITY CONTROL IS OUR STANDARD

## About us

**PROEX PACK Sp. z o.o.** is based on many years of experience of our team in the manufacture of a wide range of multi-layered, modern films for various industries. We also specialize in flexographic printing on all kinds of films. Our trademark is the constantly improved and modern machine park, which consists of technologically advanced equipment for film production, cutting and printing, and the production of bags and packaging. We have our own prepress, which allows us to provide comprehensive process support: from design to finished product from various materials. We deliver to over 200 recipients in Poland as well as abroad: Germany, the United Kingdom, Norway, Romania, Lithuania, Moldova and Russia.

## Our mission

### Development

Thanks to constant observation of the market and tracking new trends, we strive for sustainable development through investments in the latest technologies and materials.

### Quality control

Thanks to the introduction of standards and continuous product control at every stage of production, we are ready to offer the highest quality to our customers.

### Customer contact

Our advisers, supervisors and technologists are constantly available to efficiently communicate information with clients.
